

**Prospectus Supplement No. 2
(to Prospectus dated March 27, 2024)**

Up to 1,504,537 Shares of Common Stock

This prospectus supplement supplements the prospectus, dated March 27, 2024, or the Prospectus, which forms a part of our registration statement on Form S-1 (No. 333-275353). This prospectus supplement is being filed to update and supplement the information in the Prospectus with the information contained in our Current Report on Form 8-K filed with the Securities and Exchange Commission on April 22, 2024, or the Current Report. Accordingly, we have attached the Current Report to this prospectus supplement.

The Prospectus and this prospectus supplement relate to the proposed offer and resale or other disposition from time to time by the selling stockholders identified in this prospectus of up to an aggregate of 1,504,537 shares of common stock, par value \$0.001 per share, of Korro Bio, Inc.

We are registering the resale of the shares of common stock pursuant to the selling stockholders' registration rights under a registration rights agreement between us and the selling stockholders. Our registration of the resale of the shares of common stock covered by this prospectus does not mean that the selling stockholders will offer or sell all or any of the shares of common stock. The selling stockholders may offer, sell or distribute all or a portion of their shares of common stock from time to time directly or indirectly through one or more underwriters, broker-dealers or agents, and in one or more public or private transactions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions. See the section entitled "*Plan of Distribution*" for more information.

We will not receive any proceeds from any sale of common stock by the selling stockholders pursuant to this prospectus. We have agreed to bear the expenses in connection with the registration of the resale of the shares of common stock to be offered by this prospectus by the selling stockholders other than any underwriting discounts and commissions or transfer taxes relating to the sale of common stock, which will be borne by the selling stockholders.

We are an "emerging growth company" as defined under the federal securities laws and, as such, have elected to comply with certain reduced public company reporting requirements for this prospectus and our other filings with the Securities and Exchange Commission.

Our common stock is listed on the Nasdaq Capital Market, or Nasdaq, under the symbol "KRRO." On April 19, 2024, the closing price for our common stock, as reported on Nasdaq, was \$66.74 per share.

See the section entitled "Risk Factors" beginning on page 7 of this prospectus to read about factors you should consider before buying our securities.

Item 8.01. Other Events

As reported by us on April 17, 2024 in our Current Report on Form 8-K filed with the SEC, on April 17, 2024, we entered into a subscription agreement with a number of institutional accredited investors pursuant to which we agreed to sell and issue in a private placement pursuant to the exemption in Section 4(a)(2) of the Securities Act of 1933, as amended, or the 1933 Act, an aggregate of 1,249,283 shares of our common stock, par value \$0.001 per share for an aggregate purchase price of approximately \$70.0 million, or \$56.00 per share. The private placement was led by Deep Track Capital, with participation from Atlas Venture, Blue Owl Capital, NEA, Rock Springs Capital, Tri Locum Partners, and other leading healthcare investors. The private placement closed on April 22, 2024.

We expect that the net proceeds from the private placement along with our existing cash and equivalents of \$166.4 million as of December 31, 2023, will provide runway to fund the completion of a Phase 1/2 trial of KRRO-110 in ZZ Alpha-1 Antitrypsin Deficiency patients, anticipated in 2026, progress additional liver and CNS pipeline programs into the clinic and our platform with a focus on delivery and machine learning, with the remainder used for working capital and general corporate purposes.

Piper Sandler, RBC Capital Markets, and BMO Capital Markets acted as joint placement agents for the private placement.

The shares have not been registered under the 1933 Act or any state securities laws and may not be offered or sold in the United States absent registration with the SEC or an applicable exemption from the registration requirements. The offer and sale of the shares did not involve a public offering and was made without general solicitation or general advertising. The investors represented that they that they are acquiring the shares for investment purposes only and not with a view to any resale, distribution or other disposition of the shares in violation of the U.S. federal securities laws. This current report on Form 8-K is not an offer to sell or the solicitation of an offer to buy shares of our common stock nor any other securities of our company.
